Joey good morning. It is possible that you didn’t receive a copy yet of this email below to Dalton whose name and what he is all about, really makes little and no difference, certainly at this point, although you can read more about him by clicking this hyperlink below:
You may also have not thought it important that you get, let alone read, the email I sent yesterday to Wall Streeter Gerry Mohr prior to seeing more of God's presence in the high desert region of Anza-Borrego in stark contrast to human obscenity. Again click hyperlink below:

Neither you, nor Dalton, nor Gerry Mohr, no for that matter a great number of people on my email list as well as not yet on this one of a not so kind to crooks email list, representing a statistically valid sampling of the world's literate and crooked human population, might be interested in the fact that on Saturday, February 16, I sent Dalton a response to his February 13th email that read pretty much identical to the one he sent me yesterday without, however, Dalton thinking it worth his while to respond to my heavily broadcasted February 16th, communiqué.

The bottom line is first I am not stupid.

Second, I know versus believe the same cannot be said about the overwhelming majority of people on this planet, not just you, Dalton, Gerry Mohr etc etc. not to forget your friend Michael, a quadriplegic who made an extraordinarily stupid decision going on 40 years ago not so much to “take his life into his own hands” but in “getting his kicks” to make himself a dependant not so much on others who really cared for him prior to breaking his neck diving on to a rock, but to the citizens of the world who in one form or another are paying for his round-the-clock care.

Even more importantly is the fact that again, I know versus believe, that you personally are perfectly comfortable with the “status quo”, no different to the overwhelming majority of people on my email list including Devin Standard who trust me would fair much better than you and everyone member of your so self-absorbed immediate family whose intimate details you have shared with me, given how I know how well skilled and experienced is Devin; but then again Devin is doing just fine the way things are but also understands that there is a very good possibility that the change I have been initiating for some time now might in fact occur and he simply doesn’t want to be “left behind”.
Those Israeli soldiers on the front lines of Israel in the very early hours of the 1973 Yom Kippur War had really no choice apart from staying extraordinarily alert and when realizing that the unprovoked attack by Syrian soldiers was going to succeed and Israel's most tension filled front lines be overrun, to fight for their lives given how retreat was not much of an option no matter how fast they could run, but to end up starting, or should I say breaking the Jewish Holy Day fast by being forced to munch down on their own penises and testicles, many while still alive but of course bleeding to death, was a little rough, wouldn't you say?

The problem that you are having is not with me but the fact that you all know enough that I don't have to spell everything out as I once did given how you know versus believe that the US Government, representing special business interests beginning with De Beers, are behind each and every one of the world's atrocities including genocides following the US Government approving J.P. Morgan and Co. financing at the turn of the last century not only De Beers but the Anglo Boer War of 1899-1902 that was all about De Beers and Co. stealing all of South Africa's rich mineral deposits.

And of course you know enough about how to use the Google search engine to read up on J.P. Morgan-De Beers and Co. financing the American led 8 Allied Nations invasion of China in 1900.

So how do you think the markets around the world are going to react in less than 24 hours to the US Federal Reserve's decision to bail out themselves this past Friday bearing in mind that there are folks from Bears Sterns who are not only on my email list but intimately familiar with my work product going back prior to me even joining De Beers in 1980?

You are not the only one who cannot predict right now much more than what it is going to smell like when you next go to the bathroom.

But you also need me for me to remind you that “in war money is no object” and the State of Israel has been at war with all the world’s evil empire since what date would you suggest or do you prefer to just remain numb at this point and continue to blame President George W. Bush for not only all your but the world’s problems before concluding that his replacement couldn’t possibly be any worse.

Can you please explain to me how very stupid very stupid feels?
If you need assistance please email Dr. John K. Pollard Jr. and remember to blind copy me.

The Mossad long before they became “official” in December 1949 knew about De Beers and Co’s use of Concentration Camps during the Anglo Boer-Farmer War where the most awesome Gentile Afrikaner Field Marshall Jan Smuts pioneered and perfected the use of guerrilla warfare against De Beers who he had just previously worked for.

It is unlikely that when Winston Churchill made Jan Smuts second-in-command should Churchill have become incapacitated or died during World Oil War II he would have asked Smuts to provide him with a resume that would have explained why Einstein considered Smuts “one of 11 men in the world who understood General-Special Relativity” as well as showed Smuts as the right hand person of Cecil Rhodes, the founder of De Beers right before the outbreak of the Anglo Farmer-Boer War of 1899-1902, nor whether Smuts played a role in Rhodes death who died in 1949 at age 49.

Not to mention why you think there are no books worth talking explaining why the De Beers controlled media including feigned independent newsgroups like drudgereport.com, never questioned how 54 year old American Charles Engelhard died, buried on March 2nd 1971, some 69 odd years after his father founded Engelhard Minerals and Chemicals, headquartered out of Newark, New Jersey, and that in charge of the world’s greatest mineral estate that skyrocketed in value some 5 odd months later, was my uncle Dave Gevisser, a nebbish if there was ever one?

As you would now know Churchill and Smuts became intimately familiar with one another during World Oil War I which began in 1914, the year after De Beers and Co., again with the approval of the U.S. Congress, formed the U.S. Federal Reserve which holds “in trust” for another nonsense government body, the US Treasury, all of the United States gold mined in the US as well as the gold stolen from places like South Africa, China and Peru.

Don’t you just love reading about how the CIA, British intelligence and the South African Apartheid Regime’s Defense Force as part of their biological weapons programme known as "Operation Coast" sought to create "smart" poisons, which would only affect blacks, and hoarded enough cholera and anthrax to start epidemics.
Even better yet as Americans Black and White went to the streets protesting the Vietnam War and lack of civil rights here in the United States, naked black South African men were tied to trees, smeared with a poisonous gel and left overnight to see if they would die. When the experiment failed, they were put to death with injections of muscle relaxants.

Don’t you just adore the fact that you along with the likes of Nelson Mandela and Thabo Mbeki holding on to that STORED CD ROM cataloguing the United States Government’s leadership role in the killing methods of the South African Apartheid Regime, ranging from the grotesque to the horrific, cannot get out of your pee-brain minds that “Weapon ideas included sugar laced with salmonella, cigarettes with anthrax, chocolates with botulism and whisky with herbicide.”

You would also know that while the 1.5 odd billion Chinese whose so very few police don’t carry any weapons let alone guns, set the scholastic levels wherever they travel, the Mossad is not all made up of imbeciles and they too have a way of gathering intelligence even from imbeciles who think the only problem US Americans have is with “illegals” rather than “elitists” who understand perfectly well that western based Bell Shaped Educational system has the most average of us not only rising to the top but “calling the shots” on the battlefields.

So what exactly will US Americans do when we stop exporting our weapons that increasingly are insufficient to prop up our worthless-fictitious so very blood stained De Beers Dollar, anything but almighty?

No wonder so many of US Americans have to rush to our churches and synagogues, but even these mostly business-social gatherings are getting less attended given how little the preachers have to say, and increasingly concerned they will end up on that awesome “$ hit list” [sic] that causes you butterflies in your stomach; and of course you are not alone.

Please send my best regards to that SOB nephew of yours who you have yet to explain why it is that you think when he and I meet I will like him so much; and in the meantime don’t be all that surprised if someone other than you shares his email address with me.

There is currently a blanket of snow on the ground here at the Stone Home and Marie is still fast asleep although as usual she was up in the wee hours just thinking no different to me, who has very little difficulty going back to
sleep knowing again that when I am dead there will be plenty of opportunity to catch up on all the lost sleep and when awakening in the next instant, knowing versus believing, I won’t be surrounded by either imbeciles or crooks.

In due course I will continue my follow up with President George W. Bush but in the meantime give thought to how much of a role money plays in the decision by organizations like the Mossad as well as De Beers in obtaining their intelligence including of course all the trading that goes on in places like Wall Street.

Ps – Maybe today would be a good day for you to go church and to mostly think what people like Dr. John K. Pollard Jr. as well as Devin are thinking when getting on their hands and knees and praying to my Jewish brother Jesus Christ; no doubt, no different to God, laughing his head off at all the hypocrites including those who justify their lying, stealing and cheating on the basis that there is not only no justice in the judicial system but that in all likelihood they won’t get caught; and if they do they have enough stolen to buy themselves out of jail.

Yes, rather important, the Mossad throwing its weight in support of President Bill “Cecil Rhodes-De Beers Scholar-lawyer” Clinton granting Marc “Trading with the enemy” Rich a Presidential Pardon at the 11th hour of his fictitious De Beers presidency, bearing in mind that the overwhelming majority of those 3 million odd people in United States prisons are US citizens versus Marc Rich who while trading with Iran and Iraq, enemies of the State of Israel and of course backed to the hilt by the US-De Beers-Government, voluntarily relinquished his US citizenship when a fugitive from justice; not to mention the overwhelming majority of people in jails throughout the world didn’t do anything as stupid as Michael, just trying to “get along” in this systemically corrupt world.

Thank God for God wouldn’t you say, otherwise why exactly would life be worth living?

It’s NOT EASY to soar like an EAGLE
When you are surrounded by Turkeys!
Ps II – Now remember, as you give one final thought to those two members of South Africa's Secret Police armed with every imaginable poison when visiting with me back in 1989 at my offices at 100 Wilshire Blvd, Santa Monica, within days of my father placing the above ad in the South African Sunday Times, you can always cocoon yourself that much more by believing deep down inside your soul that the Monster of Monsters, The IT aka The Sperm Donor, aka The Slimeball of Slimeballs, aka Dr. John BIG Ben Stewart MD, is still out there “plotting”, calculating his next move, along with all those choosing this most evil's company.

Dalton, yes I do have time to talk but only to people willing to really listen and ready to act.

Get a group of people together and I will charge right now only US$10,000 a day but that price could change come Monday morning and people in places like Cusco, Peru, and Johannesburg, South Africa and don’t forget China shall we, figure out before the New York Stock exchange opens on Monday the value of my so far “free of charge” writings.

For every US service person and Chinese you get to attend, I will decrease the price by US$1,000.

I assume you got a copy of the “Bravo Zulu” email I sent Wall Streeter Gerry Mohr before heading out the door to see the most extraordinary display of mother-G-d-Nature in the high desert of Anza-Borrego where the wild flowers were in full bloom.

Ps – can you explain why the bailout by the De Beers controlled US Government could mean the very poor throughout the world including here in the US may not have to wait to become dirt poor and violent before deciding that they don’t need a “strong man”, let alone a wimp like Hitler, to show them the path to peace and prosperity.

It is now snowing here in the awesome Cleveland National Forest – awesome!
