Dear Gary,

I was delighted to receive your letter and to hear that you health is remaining good. I was fascinated to hear of your scrums with the women rugby players, especially the world champions.

~~Thank you also for your invitation to visit you, which I would certainly like to take up some time. In the meantime, my health has not been terribly good, as I developed a recurrence of my lung problem. However, it appears to have gone away, at least temporarily, and I am back at work.~~

Please keep in touch as it is always nice hearing from you.

Yours sincerely,
